

MAGNETIC LED DRIVER
100W / 200W | DALI DIMMING

PRODUCT DESCRIPTION:

PURERENA Magnetic LED DALI Driver:

LED magnetic drivers are fundamental to low voltage lighting. Their purpose is to transform mains power into the low voltages used by LED systems.

There are many variables to consider such as the operating environment, LED design, efficiency and power factor, control interface and form factor.

PICTURES:

USAGE:

Magnetic drivers are optimised for specific industries, regulatory conditions and duty cycles. Our expertise is to understand this and advise our customers on the correct choice.

SPECIFICATIONS:

Input	AC180 - 256V
Frequency	50/60 Hz
Code	PR-MG-DR001-D (100W) / PR-MG-DR002-D (200W)
Color	Black
Power	100W / 200W
Materials	Aluminum
Voltage	48V
Mounting Type	Recessed
Lifespan	50,000 Hours
Indoor	Yes, IP20 Rated
Dimming	DALI Dimming
Warranty	5 Years
